

## 37<sup>th</sup> Annual Kapalua Wine & Food

### Tsar Imperial Caviar Tasting

#### **Siberian**

*(acipenser baerii)*

Soft, smallish to medium sized black beads, fresh taste of the sea, velvety finish

#### **Shassetra**

*(acipenser schrencki)*

Large, distinct bead size and texture, with amber reflections to dark beads,

Fresh briny notes with hints of dried fruit and toasted grains

#### **Ossetra**

*(acipenser gueldenstaedti)*

Medium sized soft, juicy grains ranging in color from a light to a warm, rich brown

Nutty flavor with marine saline notes, elegant, well-balanced finish

#### **Kaluga Huso Hybrid**

*(huso dauricus and acipenser schrencki)*

Large and glossy grains range in color from dark gray to light golden green,

With more pronounced flavor notes of the sea that are creamy, buttery and nutty in flavor
